The Honorable Julius Genachowski
Chairman
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Re: MB Docket No. 10-56

Dear Chairman Genachowski,

I am writing to convey to you that we have found Comcast to be a valuable friend to the communities we serve across the state of Delaware.

For the past several years Comcast has been a partner at several of our Boys & Girls Clubs across Delaware. We serve 30,000 children at 43 locations in three counties. Many of these children come from disadvantaged circumstances. Through its partnership with our programs for inner city teenagers, and tutoring and dropout prevention programs, Comcast has helped us to impact the lives of children and teenagers across the state. Comcast leaders have also served on our boards and as volunteers, and have provided valuable guidance and assistance with the many challenges our organization has faced.

We are grateful and indebted to Comcast for their work with the Boys & Girls Clubs. At the same time I am aware of the many other significant contributions they have provided to other charitable causes and needs across the state. We are fortunate to have Comcast in Delaware as they have made out state a better place.

Should you have the opportunity to thank Comcast for commitment particularly for youth programs across the state please do not hesitate to do so. It is well deserved.

Sincerely,

A handwritten signature in black ink, appearing to read "George Krupanski". The signature is fluid and cursive.
